

# Education Funding in 2019

*Without legislative action, school districts face cuts to programs and staff. Contact your district to learn more about their budget challenges.*

## BASIC EDUCATION IS STILL NOT FULLY FUNDED

The Legislature significantly increased state funding for schools. But the new funding model, called the “*McCleary fix*,” still falls short of the true cost of many essential school district services.

## SCHOOLS HAVE LOST LOCAL REVENUE

The Legislature offset the state funding increases by reducing the amount school districts can raise from local levies.

## THE NEW FUNDING MODEL IS NOT FAIR

- **Teacher salaries:** Funding is now based on a state average, which penalizes districts with experienced teachers.
- **Regionalization:** Funding is adjusted by an imperfect regional cost model that creates challenges in recruiting and retaining teachers.
- **Local effort assistance (LEA):** The State fails to catch up property-poor districts by \$1,000 per student.
